

The Hon Ray Williams MP

Member for Castle Hill
Minister for Multiculturalism and
Minister for Disability Services

MEDIA RELEASE

7 May 2018

NEW NORTH KELLYVILLE PRIMARY SCHOOL APPROVAL

Work will soon begin on North Kellyville's new primary school to provide high-quality education facilities for the local community, funded by the NSW Government.

Development approval has now been received for the project, which will include 40 new classrooms, a new hall, library, covered outdoor learning areas (COLAs), and outdoor play and sports facilities.

Member for Castle Hill Ray Williams welcomed the project reaching this vital stage.

"We want our children to have the best education possible, and this project will help deliver the high quality education our children deserve," Mr Williams said.

"I'm pleased the NSW Government is delivering this important project."

Education Minister Rob Stokes said the NSW Government was working hard to deliver the school facilities students and local communities need.

"This project will give students the resources they need to succeed in the 21st century," Rob Stokes said.

The NSW Government is spending \$4.2 billion over four years building 120 new or upgraded schools and \$747 million on school maintenance. This is the biggest investment in public school infrastructure in the history of NSW.
